THEATRE ROYAL,
CITY HALL, HONGKONG.
TOMORROW EVENING, September 4th, 1875.

THE PHILOSOPHY OF LAUGHING.
There are three muscles to draw the mouth and only one to draw it down; which signifies that we must laugh three times as much as cry. Longing sometimes dangles, by juggling the internal organs. Every organ in the human system requires exercise to maintain in health, issues laughing was intended to regulate the internal organs. Many people resort to medicine to restore that which might be remedied by a hearty laugh. Laughing facilitates the circulation and procures a general betterment of the system, highly conducive to health. As an instance of this, observe the way of a young lady's cheek after indulging in hearty laugh. Some people laugh in their bedrooms, and some behind the door; these are covered laughs, and are highly injurious to the system. There are many other laughs, such as the giggle, the snicker, the twist of the mouth, &c., &c., all of which are spurious and injurious. The true and genuine laugh, which is the truest of the human system, is the hearty and spontaneous laugh prevalent amongst those who are in the *Gorgeous East*, will be administered by
